ZOUKEI-MURA

**完全再現機構** Plastic model kit (including 2-color molded parts, clear & grey) / Total parts: 353

RETAIL PRICE IN JAPAN **16,800** (+fee) JPY

Get close to the mystery of the special "push-pull" layout engine!!  
The 3 main points of the SWS Do 335!

- 1** Based on the real aircraft kept at the Smithsonian Museum!
- 2** What a kit!! A reproduction level never seen in the plastic model industry!
- 3** Just like building the real aircraft! This work is going to shake your heart!!

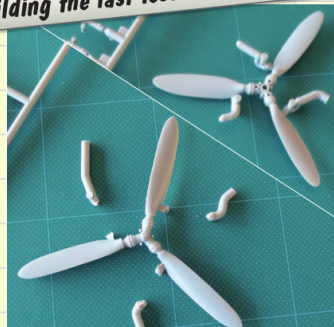

So far in just 3 hours! The fitting of the parts is perfect too! The Old Man's 7 tools make an outstanding work: they let you finish this kit so fast.

*Well known from the Old Man Blog, Mr. Shigeta, President of Zoukei-mura, is finally test-building the last test shot runners!!*

The propeller, heart of the reciprocating engine, is so perfect that it deserves to be called a masterpiece!  
The precision of the shape, the thickness and that unique twisting, and then the sled shape delicately connected from the core to the tip, everything is represented in fine details.

The runner gate in such a place! The idea of our design department joint with the skills of our tooling-maker makes this difficult propeller eject from the mold at once. Then, you can just tidily refine with a shaping knife the protuberance resulting from the cut of the gate!

**Soon! Soon in your hands!!**

UNTIL **MAY 1<sup>ST</sup>**

ACCEPTING **PRE-ORDERS**

To be delivered sequentially from **May 14<sup>th</sup>**

**This time, challenge the SWS kit! Time has come for you to cross the line!**

HOW TO ORDER SWS PRODUCTS
